PROJECTS EXPERIENCE

Questify
GitHub
HTML, CSS3, JavaScript, React, Redux
Final group Project of the GoIT Course, where I was Team Leader. The application has the ability to create new tasks and edit or delete them and also moves completed tasks to the done section.

Phonebook
GitHub
HTML, CSS3, JavaScript, React, Redux
An phonebook aplication with login and register logic. Authorized user can store a contact list response from backend.

EventBooster
GitHub
HTML, CSS3, SCSS, JavaScript, Parcel
An aplication to find best events by query search. I was Team Leader on the project. Responsible layout.

IceCream
GitHub
HTML, CSS3, SCSS, JavaScript, Parcel
IceCream Company side. I was a Team Leader on the project. Responsible layout.
